PROJECTS

2024
Individual Project

SAAS WEBSITE FOR GRADUATION THESIS (IN PROCESS)

Description: I spearheaded the development of a SaaS platform empowering agencies to streamline service management through features like user registration, integrated payments, and an intuitive admin interface, enhancing efficiency and client satisfaction.

Function Detail:
- Set pricing for agency when subcribed.
- Role for admin, agency and subaccount.
- Agency can edit their own website template.
- SEO with metadata, robot.txt,...
- Deploy on Vercel and custom vps (for NodeJs).

Technologies for B.E: Nodejs (Handle QR Code with VNPay), Prisma, NextJS.
Technologies for F.E: NextJS, Tailwindcss, NextAuth, NextUi,...
Github: https://github.com/DoNhatNam1/graduation-project-website-by-donam

2023
Individual Project

HOTEL CHAIN MANAGEMENT SOFTWARE

Description: Managed the development of a comprehensive hotel chain management website, integrating features such as real-time reservation systems, centralized inventory management, guest service tracking, and analytics tools, ensuring efficient operations and guest satisfaction.

Function Detail:
- Login and Signup with email validation.
- Manage room, employee and merchandise data.
- Agency can edit their own website template.
- Master detail in receipt products.

Technologies for B.E: NestJS, Prisma, NextJS
Technologies for F.E: NextJS, Tailwindcss, NextAuth, NextUi,...
